## 19DP09 – PCA Review, 2019-03-11

A. Parks Canada has reviewed the information provided in circular 19DP09 in the context of the following documents:

- *Canada National Parks Act*
- *Town of Banff Incorporation Agreement*
- *Banff National Park Management Plan*
- *National Parks of Canada Lease and Licence of Occupation Regulations*
- Lease for the property

B. Accordingly we note:

- The property is held under a Condominium Head Lease dated July 30, 1981. The bylaws of the corporation have not been reviewed to determine what, if any, approvals are required for a Change of Use development application. Parks Canada recommends that documentation be provided to the Town of Banff on the acceptability of the proposal to the Condominium Board.
- There was no current Title for the property provided in the circulation package
- The Phase 2 ESA that should have accompanied the development permit application as per Banff Land Use Bylaw 12.5.8(L), was not included with the circular and therefore not reviewed by Parks Canada.
- The Acoustical Report that should have accompanied the development permit application as per the Banff Land use Bylaw 12.5.8(N), was not included with the circular.
- Upon initial review, Parks Canada has determined that the proposed project is unlikely to result in adverse environmental effects that require mitigation. In accordance with applicable environmental legislation and related policy, no Environmental Impact Analysis is required.

C. Parks Canada Requirements

Prior to the issuance of any Development Permit, the following is required:

- A current Title for Block 59, Lot 11, Unit 11, LTO#8110697.
- Completed Phase 2 ESA submitted to the Parks Canada Realty Office.

Additional Parks Canada Requirements:

- Upon occupancy of the dwelling, an updated Statutory Declaration listing each occupant of Block 59 Lot 11, LTO# 8110697 is required to confirm that they are 'eligible residents' as defined under the National Park Lease and Licence of Occupation Regulations.

Please Note: Should more details become available about the project, or should the details of the project change as it proceeds through the development process, the review results above may change.

Thank you.

## **19DP10 – PCA Review, 2019-03-07**

A. Parks Canada has reviewed the information provided in circular 19DP10 in the context of the following documents:

- *Canada National Parks Act*
- *Town of Banff Incorporation Agreement*
- *Banff National Park Management Plan*
- *National Parks of Canada Lease and Licence of Occupation Regulations*
- Lease for the property

B. Accordingly we note:

- There was no current Title for the property provided in the circulation package.
- Reference to 'Schedule D' of the Land Use Bylaw in the circulation package should read: 'Bed and Breakfast Home and Bed and Breakfast Inn Allocation Table'.
- The application did not include Park's Canada's confirmation of eligible residency as required for bed and breakfast home applications, however Parks Canada has documentation on file that confirms eligible residency of the applicant so no further action is required.

C. Parks Canada Requirements

Prior to the issuance of any Development Permit, the following is required:

- A current Title for Block 56, Lot 7, LTO# 1988 GE
- Parks Canada must also receive a detailed Project Description to determine if an Environmental Impact Analysis (EIA) for the 19DP10 development proposal is required. The EIA determination of impacts must be made prior to the issuance of the development permit, and mitigations prescribed.

The proponent is responsible for drafting the project description and providing any other required information to Parks Canada. Note that this project description need only consider the addition of a 6<sup>th</sup> parking space to the lot.

A guidance document for what to include in the Project Description is attached. For further information on environmental issues or submittals, the proponent can contact Anna Brown in the Banff Environmental Assessment Office at [Anna.Brown@canada.ca](mailto:Anna.Brown@canada.ca) or 403.762.1416.

Please Note: Should more details become available about the project, or should the details of the project change as it proceeds through the development process, the review results above may change.

Thank you.
