

CAMPERSHIP DONATION PROGRAM

About the Campership Fund

The Town of Banff -Community Services Department, believes that by removing the financial barriers to attend our camp programs we can enhance the lives of those living in poverty and in turn help invest in a healthy society for tomorrow. Our camps are not just about fun, they also contribute to improved physical and psychological health, family interactions and academic performance. Our programs provide an extremely important child care role within our community and therefore allow families to continue employment during school break periods and summer holidays. Our Campership Fund provides partial scholarships to those most financially challenged and this creates the opportunity for all kids to go to camp.

This year 39% of our funding assistance applications came from employees in the hotel sector

With greater strain on the Campership Fund over the years and sustainable funding sources dwindling, it is estimated that we now require \$15,000 annually to meet the basic needs of the low-income population of Banff. This funding will allow the program to promote itself to those families most in need and to continue to partial fund all qualified applicants.

The effect of child care assistance options for your employees

Child Care remains one of the most important factors for parents to be flexible in their employment. A growing number of companies across Canada are now engaging in public or private partnerships focused on child care programs, honoring the importance this plays in employee sustainability.

How YOU can help

A \$3,000 annual donation would offset 50% the cost of 4 weeks of camp for 7 local kids. This would allow some of your employees and our local kids –who could otherwise not afford it – go on the camping adventure of a lifetime.
